Conference site

The Radisson SAS Hotel, Rostock is conveniently located in the heart of the city and offers fabulous views of the city's harbour. The hotel is just 1 kilometre from the train station, while trams and buses stop right outside the hotel. Rostock-Laage Airport is just 35 kilometres away while the Hamburg International Airport is 190 kilometres from the hotel. The city of Rostock is just a short journey to the unspoilt coastline of Warnemünde with its open sandy beach. Boats from Scandinavia and the Baltic States arrive at the Rostock international harbour every day, and Rostock-Warnemünde is a popular stop for cruise ships sailing along Germany's Baltic Coast.

Note: Advance booking is highly recommended. Participants of the congress are encouraged to order their accommodation before June 30, 2009 for a special rate "baltic summer academy 2009".

Facts for the traveller**Air Travel**

Some regional airlines serve the local airport at Rostock-Laage, but most large airlines serve the airport in Hamburg and Berlin. From the airport Rostock-Laage shuttle busses go to the central bus station next to the railway station. At the Rostock main railway station there will be the tramway 5 or 6 to Rostock "Kröpeliner Tor" running nearly every 15 min at day time with a break between 1:00 am and 4:00 am.

Ferry Travel

Ferries go from Helsinki (Finland), Trelleborg (Sweden) and Gedser (Denmark). For further information visit the homepage of Scandlines Deutschland GmbH.

Car Travel

Coming from the south of Germany traveling in direction Berlin (beltway west). Change from beltway to A24 direction Hamburg/Rostock for 60km. At the junction Wittstock/Dosse change from A24 onto the A19 in direction Wittstock, Rostock via A19. Follow the A19 to exit Rostock-Süd. After leaving the A19, follow the signs to Rostock-City.

Transportation

The congress center in Rostock is 20 km far from the local airport in Rostock-Laage. Transfers will be provided by taxi or local bus service according to the time of arrivals and departures.

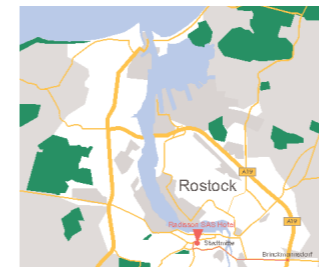

From the airports in Berlin and Hamburg bus or taxi service to the main train stations in these cities will be provided.

■ From Hamburg:

Most trains from Hamburg go directly to Rostock. Travelling time is about 2h 15min and the costs are about 31 €.

■ From Berlin:

Leaving from Berlin-Lichtenberg or Berlin-Zoologischer Garten trains go directly to Rostock. Traveling time is about 2h 45min and tickets cost 30-35 €.

Baltic Summeracademy 2009

Cardiac Surgery & Pediatric Cardiology
 Faculty of Medicine
 University of Rostock

Topics in congenital heart disease

Aortic arch anomalies

The failing ventricle

03. – 05. September 2009

Radisson Hotel

Rostock

Germany

Prof. Dr. Gustav Steinhoff
 Department of Cardiac Surgery, University of Rostock

Prof. Dr. Matthias Peuster
 Department of Pediatric Cardiology and Intensive Care Medicine,
 University of Rostock

Supported by

Dear Colleagues

Over the last 2 years, the Baltic Summer Academy has gained substantial interest among pediatricians, pediatric cardiologists and pediatric cardiac surgeons. We have, therefore, expanded the conference to 2 full days and have included 2 lunch symposia on up to date aspects of mechanical ventilation and myocardial perfusion.

This year, the “Baltic Summer Academy” is divided in two main topics: the diagnosis and treatment of “aortic arch anomalies” and the “failing ventricle” in the context of congenital heart disease. Like in the years before, the presentations -held by renowned experts- are structured to give you an overview on “state of the art” approaches to diagnosis and therapy. Again, we have put emphasis on the discussion of current therapeutic challenges and controversies.

We cordially invite you to come to Rostock and hope you will enjoy an outstanding scientific program and the beautiful hanseatic city with its historic buildings and maritime sights.

Yours,
Matthias Peuster **Gustav Steinhoff**

Thursday, 03. September, 2009

19:30 **Get-Together** “Klostercafe”

Friday, 04. September 2009

Aortic arch anomalies

Session I (9.00-12.00)

Anderson, London
Eichhorn, Heidelberg
Sandica, Bad Oeynhausen
Asfour, St. Augustin

Aortic arch anomalies
 Imaging of the aortic arch
 Surgical therapy of aortic arch anomalies
 Plastic reconstruction of the hypoplastic arch:
 Which material/technique to use

Lunch symposium (12.30-14.00)

Innovative respiratory management (sponsored by CardinalHealth)
Reckers, St. Augustin
Truebel, Wuppertal
Brouwer, Houten

High Frequency-ventilation, Pathophysiology and Indications
 Helium ventilation in Patients with obstructive airway disease
 Transpulmonary gradient guidance in ventilatory support

Coffee Break (14.00-14.30)

Session II (14.30-15.30)

Hinrichs, Hamburg
Peuster, Rostock

Management of pulmonary problems in patients with vascular compression syndromes
 Tracheo-bronchial interventions

Debate (15:30-16:45)

Peuster, Rostock
Ziemer, Tübingen

Aortic arch obstructions should be treated interventionaly
 Aortic arch obstructions should be treated surgically

Final Discussion

Sunset boat tour through Rostock Harbour
Boat will depart at 18:00
Thereafter: Social Dinner

Saturday, 05. September 2009

The failing ventricle

Session III (9.00-10.30)

Smerup, Aarhus
Beerbaum, London
Kandolf, Tübingen

Morphological Arrangement of the ventricular walls
 Imaging of the failing right or left ventricle
 Viral myocarditis

Coffee Break (10.30-11.00)

Schranz, Gießen
Diller, Münster

Medical treatment of the neonate and infant with ventricular failure
 Management of the failing right and left ventricle in GUCH patients

State of the art lecture (12:00-13:00)

Hetzer, Berlin
 State of the art lecture: Development and standardization of artificial heart support

Lunch symposium (13.30-15.00)

Innovative perfusion techniques (sponsored by Terumo)
Liebold, Rostock
Kutschka, Hannover
Hübner, Berlin
Sheppard, Southampton

Clinical impact of closed ECC-circuits
 Experience in valve surgery
 ECC in preterm infants
 Leukocyte depletion strategies during ECC

Session IV(15.00-16.30)

Hansky, Bad Oeynhausen
Strauer, Düsseldorf/Rostock
Steinhoff, Rostock

Cardiac Resynchronization Therapy
 Intracoronary stem cell therapy
 Intramyocardial stem cell therapy

Coffee Break (16.30-17.00)

Session V (17.00-18.00)

Schranz, Giessen
Hübner, Berlin

Transplantation in patients with a failing left ventricle and pulmonary hypertension
 Pediatric heart transplantation surgical aspects, management and long-term results

Final conclusions

Social program

Boat cruise to Rostock harbour | Warnemünde

When the seaside resort of Warnemünde was purchased in 1323 - at that time still a small fishing village- the people of Rostock bought themselves a piece of nearby paradise in the early middle ages. Not only is the wide beach special to Warnemünde, but also 'Alter Strom' is unique. You will enjoy this 2 hour trip, definitely. (September, 04 | 6:00pm)

Speedsailing

Sailing on maxi yachts like these is the ultimate experience in incorporating team building, active participation, healthy competition and a great deal of excitement and a lot of fun. A day spent sailing on these magnificent racing yachts on the best sailing spots of the Baltic Sea, relaxing afterwards in the comfort and luxury of the catered speed base close to the boats, is an unforgettable experience for every single participant.(September, 06)
